The Majclub Wellness Centre Ups the Ante Among Spas at The Paris Villa & Hotel Majestic

Parisian Property Offers Guests Innovative Treatments

PARIS (March 16, 2010) – The Villa & Hotel Majestic has already distinguished itself among Paris' best properties since its debut in January of this year. Among its many notable offerings: 4,800 square meters of holistic wellbeing contained in the MajClub Wellness Centre.

Within the Centre, the hotel now offers an extraordinary, revolutionary treatment designed by Céline Claret Coquet, creator of Clé des Champs, an organic line of products and therapies inspired by traditional Chinese medicine and the changing seasons.

Through the use of acupuncture and gold needles, Coquet has created an innovative face lifting treatment. With just three, painless, simultaneous actions, therapists can provide their guests with 100% natural rejuvenation. "The first step is an acupuncture session, to relax and harmonize the body's energy," explains Coquet. "This is followed by a facial lifting created by acupuncture, which considerably improves the skin's elasticity by stimulating the facial muscles and encouraging microcirculation. The third step involves a natural beauty prescription using Clé de Champs beauty treatments, optimizing the benefits of the acupuncture lift."

Other simply scintillating treatments include deep cleaning facials using extracts of seasonal products to nourish and tone the skin, combined with stimulation of acupressure points to regain balance. Bodywork is just as holistic. The "Turina" massage, for example, restores the flow of energy throughout the body by stimulating pressure points, preparing the body to face the challenges of each season.

Located in the lower level the hotel, the Centre raises the bar among its closest competitors thanks to the variety and quality of its treatments and facilities, including blue-tiled hammams, infrared saunas, a fitness facility with Technogym equipment, a heated indoor lap pool, teakwood chaise lounges for relaxing and more.

Villa & Hotel Majestic rates begin at 500 Euro per room, per night. Rates include tax and service charges. For more information, call +33 (0)1 45 00 83 70 or visit www.majestic-hotel.com.

ABOUT VILLA & HOTEL MAJESTIC: The newest addition to the Parisian hotel landscape is Villa & Hotel Majestic, which made its debut in January 2010. A contemporary sanctuary just steps from the Champs-Élysées, the 52 guestrooms and suites offer classic décor with modern accents. Many of the accommodations have spacious private and landscaped balconies, bringing the city's beauty to the forefront. The 4,800 square-foot MajClub Wellness Centre features the Chinese medicine-inspired Clé des Champs line of exclusive treatments and products, while Le Premium Bar and the restaurant provide cocktails and a refined menu to suit every palate. Private parking is also available. www.majestic-hotel.com.
