

“Majestic Villa & Hotel” A new star in the firmament of the 16th

* A FIFTH STAR FOR THE VILLA & HÔTEL MAJESTIC

SINCE FEBRUARY 2010 the latest jewel in the Baverez family's crown has stood in the heart of Paris's ultra-chic 16th arrondissement a stone's throw from the Etoile.

The **Majestic Villa & Hotel**, basking in the glory of its big brother, the nearby **Hotel Raphael**, and already forging its own reputation, has everything it takes to be the rising star in the firmament of luxury hotels. **Françoise Baverez**, a third-generation member of the family that founded the Raphael-Regina hotel group, has just appointed her daughter, **Véronique Beauvais - Valcke**, to the position of general manager.

The young, 38-year-old woman, who has been with the company for 10 years, has already made her mark by, among other things, giving the **Majestic Villa & Hotel** a very contemporary setting integrating a unique concept: a hotel residence, a hotel and a spa with a swimming pool, all under one roof. The **Majestic** embodies the quintessence of a great hotel and the priceless freedom of a night's “home sweet home”.

Prestige Suite

Hotel or home? Whichever you choose, luxury and refinement will greet you here. The Majestic boasts the same amenities as a grand hotel, synonymous with flawless service and the leading edge of comfort - with the added cachet of an exceptional setting.

* OUTWARD SIGNS OF INNER REFINEMENT

You can recognize an outstanding address at first glance, but it's an experience that delights all the senses. Architect **Raluca Urseanu** designed the Majestic Villa & Hotel's exterior, but the Baverez family has left its eminently personal stamp everywhere inside. Interior architect Paul Sartres helped **Véronique Beauvais - Valcke** design the beautiful spaces, lavishing particular care on the decoration. The result lives up to the hotel's philosophy: “luxury, calm and voluptuousness”, as Verlaine might have said. Originality and refinement are obvious in every upscale detail.

450 square meters of terraces in the middle of Paris

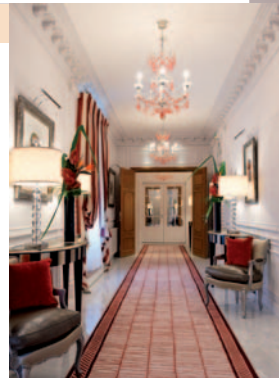

It goes without saying that the same spirit prevails on the outside, adding a unique cachet to each of the 450 square meters of private terraces adjoining the apartments—something that has never been seen in the heart of Paris before! Living beneath the stars a stone's throw from the Etoile: that dream is the daily privilege of guests at the Majestic Villa & Hotel.

The terrace of the splendid penthouse, with its “*beige topazio*” Portuguese stone façade, even has a fountain. The price of the dream? €4,500 a night for a unique experience.

The “villa touch” in a few details...

- **Floors:** Portuguese stone (branco classico) on the ground floor and cabochons (imperador), Carrara marble on the upper floors and the grand staircase, French oak parquet floors everywhere else. And on top of that, hand-tufted New Zealand virgin wool rugs here and there.
- **Design:** trendy furniture creates a unique mood in each room or apartment.
- **Comfort:** mattresses, mattress covers and comforters for cozy beds, centralized vacuuming, stainless-steel radiator towel-dryers supplied by the hot-water system to save energy.
- **Technology:** integrated automation to adjust temperatures in the apartments, interactive TV in every room, 4 elevators and more.

* AN INVITATION TO WELLNESS

Majestic Villa & Hotel's other great attraction is the 450 square meters beauty and **"wellness"** centre, the MAJClub, which makes your enjoyment complete with a swimming pool, fitness room, saunas, steam rooms and gym classes in a space exuding the quality, aesthetics and performance that are already the Majestic's trademarks.

A zen spirit in a chic body

From the hotel you can reach the wellness space by a staircase featuring a magnificent transparent pâte de verre painting. The luminous work by the Alliod Mosaïques d'Art company (best craftsmen in France in 2004 for art mosaic) sets the tone: you are in a spa unlike any other.

A little further away a superb wall of water completely covered by seashells confirms that impression. Everybody knows the benefits of spas and aquagym, but here they take on quite another dimension. The 13 meters long, 1,30 meters deep countercurrent swimming pool is in a spacious 180m² room. The spaces' calm beauty is highly inspiring for the body and mind. Two infrared saunas and two Nordique France steam rooms round out the picture.

The fitness center

Of course, the MAJClub boasts all the latest equipment, from treadmills to stationary and elliptical bikes, rowing machines, kinesis, soft balls, barbell benches, a dance bar with mirrors and technogym. Ideally located in the heart of Paris, the club is already the “place to be” for everybody wanting to take of themselves in an exceptional setting.
